VRC Metals Systems Has Been Awarded Large Business Of The Year From Elevate Rapid City

Box Elder, SD (August 8, 2022) – Elevate Rapid City held its first annual business awards celebration at The Monument in Rapid City, SD on June 14th to honor ten businesses winning various awards along with the 24 finalists. **VRC Metal Systems**, a leading developer of advanced cold spray technologies, was awarded the Large Business of the Year Award from Elevate Rapid City. This award honors VRC's strengths, accomplishments, and continual growth in various industries such as Military & Defense, Nuclear Power, Aerospace, and more. This award is yet another recognition of VRC Metal Systems' hard work and dedication to providing not only the best products and services in the industry but also have the best employees on their ever-growing team. VRC Metal Systems is honored to have been awarded the first annual Large Business of the Year Award and they look forward to winning many more awards in the future.

"We are thrilled that Elevate Rapid City has recognized VRC as the large business of the year for the Rapid City region. We are also thankful for all of the support we've been given over the years from Elevate, the Governor's Office of Economic Development (GOED), our Congressional delegation, and other state and local agencies to help us grow," says Rob Hrabe, CEO & Co-Founder, VRC Metal Systems.

This news comes in the wake of many recent major accomplishments for VRC Metal Systems, including:

- Being selected by the U.S. Navy to take part in the Navy's REPTX to provide solutions for pier-side and shipboard cold spray corrosion and battle damage repair and mitigation on August 22 - September 2, 2022.
- The development of their C.A.M.P. Site™ fieldable enclosed, self-supporting portable cold spray unit to repair corrosion and battle damage.
- The development of their VRC® Dragonfly™ system; is another fieldable cold spray system used for shipboard repairs by repairing components in place while the ship is in port or at sea.

About VRC Metal Systems

VRC Metal Systems is a leading developer of advanced technologies from South Dakota. VRC Metal Systems officially started in 2013 after years of various collaborations and partnerships and since then has rapidly grown, winning many grants, awards and recognitions. VRC now is a

leader in the cold spray market and is a full-service cold spray provider that manufactures equipment, process development, engineering, integration, training, on-site and regional support. Learn more about VRC Metal Systems and its products here: www.VRCMetalSystems.com
