

Quality Policy

As a cold spray and advanced manufacturing technology development company providing high quality and innovative coating, repair and production solutions for a wide range of industries, we are committed to continually improving our ability to satisfy the requirements of our customers.

This will be achieved through our commitment to:

- Continually review and upgrade the cold spray equipment to meet our customer expectations
- Provide sound solutions to ensure customer success
- Deliver products to customers on time, every time
- Continually review and update our Quality Management System ensuring conformance to International Standards
- Enhance the expertise of our employees through structured training and development programs
- Create an environment which encourages team collaboration where all individuals are recognized and valued for their contributions

A handwritten signature in blue ink, appearing to read 'Rob Hrabe', with a long horizontal stroke extending to the right.
